

轨道交通业务领域 RAIL TRANSIT BUSINESS AREA

中能电气股份有限公司

地址:福州市仓山区金山工业区金洲北路20号

集团官网: <http://www.ceepower.com>

产品及技术支持: 400062-0666

服务总机: 0086-591-86550308

邮箱: ceescb@ceepower.com

Company Address:

20 Jinzhou North Road, Jinshan
Industrial Park, Cangshan District,
Fuzhou, Fujian Province

Email: global@ceepower.com

Whatsapp: +1 (626) 298-9924

Energizing Modern Mobility 领跑轨道交通行业

依托全产业链技术及服务优势，中能电气不断以新理念、新技术赋能轨道交通业务开拓，2011年全面进入轨道交通领域，以专业工程设计施工维护能力为引领，以精益制造为基础，致力于电气化铁路及城市轨道交通系列产品的生产、销售和服务，产品涵盖箱式变电站、电抗器、高低压成套等。

Ceepower, with its comprehensive expertise across the industry, has been driving the development of rail transit through innovative technologies. Since entering the sector in 2011, the company has focused on electrified railways and urban transit solutions, offering products such as prefabricated substations, reactors, and high/low voltage switchgear, along with professional design, construction, and maintenance services.

Business Scope

业务覆盖

01 电气化铁路供电系统解决方案 Electrified Railway Power Supply System Solutions

专注电气化铁路产品的研发、生产、销售和技术服务,提供包含铁路运动信号箱变系统解决方案在内的高品质电气化产品和解决方案

Research, development, production, sales, and post-sales service of electrified railway products. Includes high-quality electrification products and solutions such as railway signaling transformer substation systems.

02 地铁供电系统全套解决方案 Subway Power Supply System Solutions

以生产制造和服务为支撑,集成包括地铁配电系统、环控柜、环境与设备监控系统 (BAS) 等部分在内的地铁供电系统

Integrated power supply systems, including distribution systems, environmental control cabinets, BAS, and others.

配电箱系列
Box-Type Substation Series

YBP(T/M)8系列箱式变电站作为铁路10kV自闭、贯通线或其它 10kV电力线路分段的开关设备，符合 GB/17467 和 DL/T537-2002 标准，主要用于铁路电力市场，为车站和区段负荷供电。箱式变电站支持架空和电缆连接并允许本地或远程操作。安装方式包括地面、隧道、杆式安装平台。

The YBP(T/M)8 series railway box-type substation is a factory-preassembled unit that complies with GB/17467 and DL/T537-2002 standards for high/low voltage prefabricated substations. Designed for railway applications, this substation serves as a switchgear for 10kV self-closing, through lines, or other 10kV power line segments, supplying power to railway stations and interval loads.

铁路区间箱式变电站 YBP(T/M)8系列

YBP(T/M)8 Series Railway Section Box-Type Substation

户内一体化变电站

Indoor Integrated Substation YBT-10/0.4

户内一体化变电站是专为铁路应用而设计的模块化10kV 配电开关柜，以可靠的配电，为信号、通信和照明系统提供主电源和备用电源，最大限度地降低隧道和轨道旁环境中的电力故障风险，从而提高铁路基础设施的稳定性和可靠性。

The YTB/10-0.4 indoor integrated substation is a modular 10kV distribution switchgear designed specifically for railway applications. It ensures reliable power distribution, minimizing the risk of electrical failures in tunnel and trackside environments. Ideal for powering signaling, communication, and lighting systems, this substation offers both primary and backup power options, enhancing the stability and reliability of railway infrastructure.
